Musterentwurf von Aisling

The pattern consists of a 20x14 grid. The leftmost two columns (1 and 2) are red. The rightmost two columns (13 and 14) are yellow. The remaining 10 columns (3-12) are primarily white with various grey and 'x' markers. The grey markers indicate where tablets should be turned toward the weaver, while white markers indicate where they should be turned away. 'x' markers indicate the final desired pattern. The pattern is symmetric across the horizontal midline.

= Brettchen werden zum Weber hin gedreht/ turn the tablets toward you

= Brettchen werden vom Weber weg gedreht / turn the tablets away

= So soll das Muster aussehen / this will be the pattern
